DETAILED ACTION

0.1 This Office Action is in response to the amendment filed on 1/08/2007. Claims 3 and 11 are canceled; claims 1, 4, 10 are amended and claims 25, 26 are added.

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference characters "110" and "120" have both been used to designate second code incoding unit. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 18-20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 18-20 recite a program for correcting errors of an encoded data sequence...It appears that the computer program is a program per se, which is not intended to be limited to any particular programming language and implementation thereof. The claims as written and taken as

Art Unit: 2133

a whole are directed to a mere program listing, i.e., to only its description or expression, which can be written on a piece of paper. Therefore, to be statutory the claims must be embodied in computer-readable medium. However, claims 18-20 as written are not embodied on a computer-readable medium needed to realize the program's functionality.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 21-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. It is not clear to the Examiner how "a program recording medium...realizing by a computer ..." "a first code encoding unit ...a second code encoding unit ...ora storage unit ...a first error correction unit...a second error correction unit..." Tse limitations are indefinite in the claims.

Allowable Subject Matter

6. Claims 1-2, 4-18, 24-26 are allowed.

Response to Arguments

7. Applicant's arguments with respect to claims 1-26 have been considered but are moot in view of the new ground(s) of rejection.
